

Remember last winter?

Don't get caught in line this winter season, secure your winter tire package today!

The efficiency of winter tires greatly surpasses that of all-season tires once temperatures fall below seven degrees Celsius. Other benefits include:

- **Up to 50 per cent more winter traction than all-season tires,**
- **Shorter stopping distances and better vehicle cornering and control in winter conditions.**
- **Plus, mounting winter tires during cold months will help to prolong the life of your all-season tires.**

And don't forget about steel wheels! No more exposing your original equipment wheels to those harsh winter elements. Mounting your winter tires on a separate set of steel wheels will also **save you money** in the long run as balancing and mounting are not required each time you changeover your tires from all-seasons to winters.

Ask us about including your winter tire and wheel package in your monthly payment.

Number 7 Honda is your one-stop Tire Source. You can trust us to get you the right tires at the right everyday value price. With our wide selection of brands and types, there's no need to shop around.
